Geneva, 15. December 2025

Dear Sir or Madam:

It is a genuine pleasure for me to strongly recommend **Karanjot Singh** for a position in your company/organisation. Mr. Singh is a very motivated and talented student. He joined CERN in 2025 as part of the highly competitive CERN technical student program. Since then, he is an active member of the Rucio project team, which I lead.

Mr. Singh is an extremely capable and passionate student, with a well-organised and scientific approach to software engineering. He proved his knowledge in distributed systems, data management, networking, continuous integration testing, as well as computing in general and demonstrated impact on large scale. His eagerness for knowledge and learning is noticeable in every interaction with him. I have no doubt that he would perform excellently in any task given to him.

To conclude I strongly recommend Karanjot Singh for a position in your company/organisation. He is an exceptionally talented and skilled student and would contribute greatly to any organisation.

A handwritten signature in black ink that reads "Martin Barisits".

**Dr. Martin Barisits**  
Staff scientist & project leader  
EP Department, CERN
